Concepcion, Tarlac 

Angeles City, Pampanga,

Dear,

April 9, 2024

Ms. Jeanky S. Mendez

As someone who recognizes the creativity and excellence of The Cloudstaff company, I was eager to apply and be of service to you as a front-end developer. As a diligent student pursuing a degree in Information Technology specializing in Website development with a passion for creating seamless user experiences and a committed heart for programming and design, I am enthusiastic about the opportunity to be included and contribute to your innovative team.

I have been actively engaged in leveraging my skills through online courses, personal projects, coursework, and extracurricular activities. I have a strong foundation in HTML, CSS, and Javascript, and I am interested in applying my skills and knowledge and tackling concrete experiences in the industry.

While I may not have professional experience in front-end development, I am interested in expanding my skills from your accomplished team of developers due to my dedication to continuous growth and improvement in my role as a front-end developer. I intend to actively seek feedback from colleagues and mentors to hone my services and contribute efficiently to projects. I am open to feedback and constructive criticism as I view it as an opportunity to enhance my growth and development for the role that I am committed to.

I am confident that my keenness and passion for front-end development, associated with my strong academic background, make me a competent candidate for this position. Thank you for considering my application and I am looking forward to the opportunity to converse about how I can contribute to the success of the Cloudstaff company.

Sincerely,

Nickaella Notra
